Statement of Steven S. Showers, Founder

Messenger of the Pillar of Light

America Must be Saved for the Fulfilment of Her Divine Destiny

The Pillar of Light comes to warn the people that a storm approaches which will threaten the very survival of their nation. If the people do not move back to their foundation in God, in Christ, the nation cannot survive. The Pillar of Light comes as a reference point, a bright light in the darkness, to show the people the way to save themselves, and their nation.

The Pillar of Light is the Power of God our Father and our Mother made manifest before the eyes of the people. The Pillar of Light is the Wisdom of God our Father and our Mother made manifest before the eyes of the people. The Pillar of Light is the Love of God our Father and our Mother made manifest before the eyes of the people.

The Purpose of the Pillar of Light

More than anything else, the Pillar of Light is the Mercy of God our Father and our Mother made manifest before the eyes of the people. Again, the Mercy, the Mercy, of God our Father and our Mother, made manifest before the eyes of the people.

The Pillar of Light stands before us with many important messages for the Children of God in America.

I Am the Messenger of this Pillar of Light, and this is the First Message, which I will repeat three times:

- 1. If You Don't Stop Abortion, America Will Be Destroyed.**
- 2. If You Don't Stop Abortion, America Will Be Destroyed.**
- 3. If You Don't Stop Abortion, America Will Be Destroyed.**

Ever since 1973, in Roe v. Wade, wherein the U.S. Supreme Court legalized abortion throughout the entire United States of America, this nation has been living **an illusion**; that God our Father and our Mother would never exact upon us any consequence for the slaughter of 55 million innocent children in the womb. That illusion is about to be broken. That illusion is about to be shattered. The storm of consequence approaches.

The Pillar of Light stands before us for this primary purpose, to warn us, and to allay all doubt in this regard, that this storm of consequence approaches.

Now, God our Father and our Mother desire for their children to understand why this storm of consequence must be unleashed; and especially to understand that the Pillar of Light brings an important opportunity for mitigation. Yes, especially to understand that the Pillar of Light brings an important opportunity for mitigation.

Accordingly, time will be provided for that understanding to come forth, for the people to digest and assimilate that understanding, and to act on that understanding, before the storm front makes full land fall.

However, the people should understand that the time is short. The time is short. Because the time is short, it would be gloriously prudent for the American people to begin moving in the direction of an abortion-free America immediately.

And in that regard let this be clearly understood. God our Father and our Mother desire, and it is their requirement, that abortion end in America **only** through established and legitimate Constitutional processes and procedures. Again, and this is important, God our Father and our Mother desire, and it is their requirement, that abortion end in America **only** through established and legitimate Constitutional processes and procedures.

Given this constitutional requirement, it would, again, be gloriously prudent for the people to step forward quickly to contact their elected representatives in the State Legislatures and in the U.S. Congress, to impress upon these honorable servants of the people the urgent need to set this Constitutional Machinery into motion, at the earliest possible moment, for the Saving of America.

Choices made by the American people in this hour will have fateful repercussions across the entire face of this earth; for the American people hold the fate of the whole planet in their hands. America is the keystone in the archway of planetary freedom; allow that keystone to be destroyed, the archway will fall, and that archway will fall for the people of the whole planet.

Because America is a democracy, every citizen has a role to play, and a vote to cast, in answering this question, as to whether America lives, or dies. And consequently, whether all corollary traditions of freedom on this planet will either survive, or fail.

Remember the Titanic. The story of the sinking of the Titanic has special relevance to the United States of America in this hour. The Titanic was headed for

America when she sank. But not only that. Just as the builders and operators of the Titanic boasted of her supposedly unsinkable strength, so too do American politicians, in search of votes, passage fares if you will, place the same false hopes in the hearts and minds of the American people. But America is not unsinkable.

The truth is, that America hit her own iceberg, taking on that mortal wound in her own hull 42 years ago, and she has been taking on water, and slowing sinking, ever since. Today the ship of state is listing sharply, and rides dangerously low in the water. The coming storm will surely send her to the bottom, unless the people take action.

This is the warning. The end is near. But that end need not arrive. The Mercy of God yet stands as a Golden Goblet on the Kitchen Table. The ship can survive, and continue her journey, if the people can find their way back to their native humility, and in the spirit of repentance, reach out their hands and hearts to God our Father and Mother for help.

Yes, America Must be Saved for the Fulfilment of Her Divine Destiny. But it is not enough for God our Father and Mother alone to have a plan for the fulfillment of America's destiny. The American people must recognize and ratify that plan within their own hearts, and then, with their own hands, set the course of the nation.
